

# Client Side

|                   |              |
|-------------------|--------------|
| <b>HTML</b>       | Content      |
| <b>CSS</b>        | Presentation |
| <b>Javascript</b> | Processing   |

Why bothering with HTML and CSS when there are great tools out there doing excellent job?
