The D-Link logo is displayed in a large, blue, serif font. The 'D' is significantly larger than the other letters. A registered trademark symbol (®) is located at the top right of the 'k'.

A new spate of vulnerabilities have been found in a D-Link router, a security researcher said Monday.

The D-Link 2760N, also known as the D-Link DSL-2760U-BN, is susceptible to **several cross-site scripting (XSS) bugs** through its Web interface, **reported ThreatPost**.
