

Different ways to handle events

```
// Overwrite the existing handler
```

```
e.onclick = function(e) {
```

```
    ...
```

```
};
```

```
// Add another event handler
```

```
e.addEventListener('click', function(e) {
```

```
    ...
```

```
});
```

User-defined events and listeners

```
// Listen for the event
document.addEventListener( 'myEvent', function(e) {
    ...
});
```

```
// Dispatch the event
document.dispatchEvent(new Event( 'myEvent' ));
```
