

# Arrays

```
let myArray = new Array();  
myArray[0] = "JavaScript";  
myArray[1] = "is";  
myArray[2] = "fun";
```

Or

```
let myArray = new Array ("Javascript","is","fun");
```

Or

```
let myArray = ["Javascript","is","fun"];
```

# Associative Arrays (aka Hashtables or Dictionaries)

```
let myDict = new Object();  
myDict["first"] = "JavaScript";  
myDict["second"] = "is";  
myDict["third"] = "fun";
```

Or

```
let myDict = {};  
myDict.first = "JavaScript";  
myDict.second = "is";  
myDict.third = "fun";
```

Or

```
let myDict = {first: "Javascript",  
               second: "is",  
               third: "fun"}
```
