

# HTML : Hyper-Text Markup Language

|               |  |
|---------------|--|
| <b>HTML 1</b> | invented by Tom Berners-Lee (1991)                     |
| <b>HTML 2</b> | first standard from W3C (1995)                         |
| <b>HTML 4</b> | separation between content and presentation CSS (1997) |
| <b>HTML 5</b> | multimedia (2008)                                      |

# Terminology

**Markup:** tags starting and ending with angle brackets

`<p>`

**Content:** Everything else (arguably)

`this is something else`
