

Calling a promise

```
readFile(filepath)
  .then(function(data){
    console.log(data);
  })
  .catch(function(err){
    console.log(data);
  });
```

Calling a promise with async/await

```
async function run() {  
    let data = await readFile(filepath);  
    console.log(data);  
};  
  
run().catch(err => console.error(err));
```
